

The success of a project is depends on the management of project. Managing a project is not an easy task, most of the time its challenging job for the related parties. At the time of working with project of government/ public or private you may find acronyms and abbreviations of different key points those are very much confusing in nature. To reduce you confusion I have tried to combine commonly used acronyms in project management. Hope this will be helpful for the students of finance have interest on project management and any other parties related with project (public or private).
