Waistband

Waistband is made from denim fabric which surrounds our waist when we wear jeans pant or any other pants. On this waistband, we basically wear belt to fit properly. A jeans pant contains only 1 waistband

Belt Loop

Belt loops are added with jeans pant so that belt can fix on it and hold the pant where we supposed to hold. There are five to seven loops are there in a jeans pants. But most of the designer prefer five loops onto the waistband.

Button

Button is used to close the top of the fly of jeans pant.

Fly of Jeans Pant

The fly is the opening part of the middle of the pant which is used to hide the zipper or button attach in there.

Watch Pocket

Watch pocket is the small pocket which place in upper part of the front right pocket of jeans pants. Watch pocket is also known as key holder which make the jeans pant more attractive. There is only 1 watch pocket for Jeans pant.

Pocket

In clothing, pocket is mainly used for holding small materials but it also increases the attractiveness of cloth. Pocket is one of the main part of jeans pant where there is four pocket. Two-pocket are in front side and other two are in back side of the jeans pant.

Jeans Rivets

In a jeans pant, you may find rivets which is made of metal. Rivets actually used in the joining point of pockets of each side which not only holds the denim fabric together but also increase the attractiveness of that jeans pant.

Crotch Point

Crotch point is the joining point of two parts below the fly of jeans pant.

Back Yoke

In a jeans pant, you may find yoke which is located in the back side of the pant, attached with the waistband. Back yoke ensure the close fitting of jeans pant to our body.

Bottom Hem

Bottom hem is in the bottom of jean pant which is folded and attached by sewing.

Back Rise

Back rise is the middle back joining point of jeans pant.

Seam

Side seam and Inseam basically the part of jeans pant where two parts joint together by sewing.

Zipper

Zipper is used to close the front opening part of the jeans pant where both chain and button system can be used in jeans pant. Two buttons can be used instead of using chain system zipper.
